Product description

High Quality With Fast Delivery

Our SkySeal Skylight offers a **competitively priced** glass roof light without compromising quality. Offered in a range of sizes the Skyseal Glass roof light is available on a **2-3 day lead time** and boasts a superb part 'L' compliance.

Minimalist Design

The **sleek contemporary design** achieves maximum daylight due to the minimalistic framework finish which barely visible from the internal of the building, the units are very easy to install and require very little maintenance other than periodic cleaning.

Thermally efficient

With a centre pane U-value of 1.1 W/m²K the Skyseal Flat Glass is one of the most thermally efficient double glazed roof lights in the market.

Glass Spec: 32.4mm Overall (1.1 W/m²K)

- 6mm toughened outer,
- 20mm 90% Argon filled cavity
- 6.4 mm laminated soft coat Low E inner

Easy & Quick to Install

The Skyseal Glass Rooflight can be installed on a minimum 2° fall and offers a universal daylight solution for both residential and commercial projects. Fixing to a prepared upstand the unit is primarily a sleeve over installation.

Advantages over traditional systems:

- Sleek design
- Speedy delivery
- Thermally efficient
- Exceptional U values
- High-performance impact-resistant glass
- Factory sealed units
- Environmentally friendly (all components are recyclable)
- Competitively priced

This product has additional options:

Sizes: 600 x 600mm , 700 x 700mm , 800 x 800mm
